

Nassal and Mustafa

“ There was no precise moment where we knew we were meant to be. It was an instant connection that built a love so deep it was undeniable to the both of us. He made me feel safe, precious and loved, in his arms, it felt like home. ”

Tying the Knot

OUR INSPIRATION

As a florist, wedding planner and stylist, I have been fortunate enough to see and work with different decor concepts. Our vision for our wedding day was to create a timeless yet modern romantic affair. I was keen on pairing unique and antique pieces with ultra chic and modern ones. We used a stunning palette of beautiful blush pinks, whites and greys throughout the wedding. An elegantly dimmed room, coupled with lush floral arrangements of garden roses, Phalaenopsis Orchids, Dahlias and Hydrangeas created a romantic and magical ambiance for our guests to celebrate with us. We had a one of a kind monogram created that was used from anything and everything from our custom laser-cut invitations, to the menu and place cards, to the elaborate vinyl floor. Above all else, we wanted to add personal touches to our decor, so, to share my passion for flowers, each guest was gifted with a succulent plant placed in a beautiful white ceramic pot.

WE LOVED

We can't seem to agree on our favourite part of the wedding (surprise, surprise)! For me, it was our first dance to John Legend's *All of Me*, performed live by a violinist and female vocalist. Mustafa loved the surprise video montage of our childhood videos and photos. Guests loved the family style service of Middle Eastern cuisine. They couldn't get enough of the tasty lamb shank and kabobs!
